Report to accompany the estimate for putting expanded metal to the windows of Parimallappa's High School, Mysore

******

The windows of the main building have no iron bars, and the members of the Assembly find it very inconvenient for occupation, as there will be no ventilation if the shutters are kept closed for safety. To keep down cost and to satisfy urgent necessity, it is proposed to provide one window only in each room with expanded metal.

Accordingly the present estimate has been prepared providing for fixing expanded metal for 18 windows immediately. The remaining windows can be similarly treated next year under seperate estimate as it will be very costly to take up the whole work simultaneously. Only windoow in Ground floor require the covering.

The amount of the estimate is Rs 210/-

Assistant Engineer,
Head Quarter Range, Mysore.
